

Department of Public Utilities - Orangeburg, South Carolina**Applicable:**

To any customer for general power and energy purposes having demands of 50 kW and not exceeding 200 kW, or for those customers who do not otherwise meet the service criteria for any other existing rate schedule. This schedule is not applicable to breakdown, standby, supplementary, resale or shared electric service.

Character of Service:

Alternating current, 60 hertz, three-phase service. Voltage at the option of the Department.

Net Monthly Rate**Supply Charge:**

Current supply charge will be applied to this rate schedule.

Distribution Demand Charge:

All kW @ \$5.80 per kW of billing demand

The billing demand (to the nearest whole kW) shall be the greatest of (1) the maximum integrated fifteen-minute demand measured during the current month, (2) eighty percent (80%) of the highest demand occurring during the eleven preceding months, (3) the contract demand, or (4) 50 kW.

Service Charge:

\$75.00 per meter per month.

Power Factor Correction:

The customer shall at all times maintain a power factor of not less than 90-percent. The Department reserves the right to conduct tests to determine the power factor of the customer's installation during periods of maximum demand or by measurement of the average power factor for the monthly billing period. Should the power factor so determined fall below 90-percent, the demand for billing purposes will be determined by multiplying the maximum kW demand by 90-percent and dividing by the determined power factor. No credit shall be given for power factor greater than 90-percent.

Note: “General Terms and Conditions” in effect apply to above.

Effective: January 1, 2009
