Should Customer fail to schedule deliveries, the Department will assign a scheduled quantity equal to the quantity previously scheduled by Customer.

Balancing:

Customer is responsible for balancing actual deliveries with scheduled quantities on a monthly basis. To the extent Customer's failure to balance actual deliveries with scheduled quantities contributes to any penalty or additional cost to the Department, Customer shall reimburse Department for such additional cost.

Competitive Pricing Provision:

In the event the Customer can demonstrate that the Customer's as-fired price of alternative fuel is less than the level of the charges determined as set forth above, the Department, at its sole discretion may reduce the Interruptible Gas Supply Charge to a level, which when added to the Department's Distribution Charge, is not less than the as-fired cost of the Customer's alternative fuel. In no event will the Department reduce the Interruptible Gas Supply Charge to a level less than the Department's out-of-pocket cost of gas.

In the event that the Customer's as-fired price of alternative fuel is less than the level of the charges determined as set forth above, with the Interruptible Gas Supply Charge reduced to its minimum, the Department, at its sole discretion may reduce its Distribution Charge. In no event will the Department reduce its Distribution Charge below \$0.05 per dekatherm.
